Escorted Transportation Service Northwest provides safe and personal escorts for seniors to attend medical appointments.

How can Escorted Transportation Services benefit you?

The purpose of ETS is simple: to provide a reliable volunteer based transportation service for older adults for health related appointments.

Funding for ETS is provided by client contributions, an annual appeal, the commitment of caring contributors.

This service is available by appointment only. Seven days advance notice is suggested. A \$10 contribution is welcomed.

WE PROVIDE RIDES FOR:

Medical appointments
Dental appointments
Therapy appointments
Dialysis
Chemotherapy
Lab work

As a client you:

- Are escorted to your appointment by a carefully screened, insured volunteer driver who wants to serve older adults.
- Receive dependable transportation to and from medical and dental appointments, with a stop at the pharmacy when needed.
- Have peace of mind and security that you are managing your own health care needs.
- Maintain your independence, alleviating the necessity of calling upon family members and caregivers.
- Will find ETS an affordable solution to your transportation concerns.

Mission Statement

We seek to serve seniors in need of non-emergency transportation in cooperation with our faith community serving our Lord.
